

TCM Forklift Part

TCM Forklift Parts - In the global business of material handling, lift trucks play a major part for transporting industrial goods. First innovated as industrial vehicles during the 1930s in the U.S., forklifts gained recognition after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these equipment spread internationally.

Originally founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. prior to becoming recognized as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first forklift. Throughout the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the business. TCM began building lift truck manufacturing sites outside of Japan in the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes various models of industrial trucks with over 50 years of accumulated expertise and technology, making their products recognized and used all over the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading business.
