

Attachments for SVE Trucks

SVE Truck Attachments - Svetruck initiated business in the year 1977 with a clear idea of what particular sort of company they wanted to be and what kind of merchandise they wished to produce. They designed a reliable, durable and service-friendly forklift. Svetruck specializes in producing lift trucks which enable the individual operating it to work efficiently within challenging surroundings. Svetruck believes that being capable of doing safe and successful material handling in the best way possible helps so as to add to a positive work atmosphere.

Home to their manufacturing facility in Ljungby, they produce equipment like log-stackers, container handlers in addition to forklifts. To this day Svetruck is proudly supplying lift trucks and various lift trucks to all of their international customers.

Focused on the future, Svetruck remains completely dedicated to maintaining their excellent status of makers of reliable and durable lift trucks. Their fundamental approach to high quality, solid experience and more than 30 years of knowledge in the subject, means they could offer people brilliant solutions for all of their material handling needs.
