

Spreader Bar for Forklifts

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the largest independent spreader producer all over the world. They are a dedicated producer of spreaders intended for many several applications such as the trailers, handling of containers and swap bodies.

Engineering is done in house by way of making use of the latest CAD systems and FEM tools. The ELME company currently has more than one hundred twenty five employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the globe.

The product range of ELME comprise many spreaders designed for several container and trailer handling operations. Several of their inventory comprise: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers in addition to a wide variety of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they created over one thousand one hundred fifty spreaders by means of making use of top quality elements so as to guarantee reliability and excellent standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market reaction and innovative modular spreader concept.
