

Meritor Parts

Meritor Parts - The Meritor Company is a premier international dealer built upon 100 years of tradition of service and quality. Meritor focuses on integrated systems along with a range of modules and components to the original equipment makers and aftermarket equipment within the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and feels that this energy contributes to their competitive advantage within the international operations. The company values their clients and wants to ensure their success while anticipating their various requirements. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred people, Meritor promotes collaboration and innovation among a team of knowledgeable experts.

By just employing future focused staff, Meritor strongly believes these top-caliber people will be able to quickly adapt to changing surroundings and exhibit the commitment and performance needed to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides all of their staff different possibilities for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, braking and suspension systems intended for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the requirements of their global engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all around the globe in 19 countries and in 5 different continents.

They have their supplier network that is specifically located so as to support the development of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise included transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
