

Clark Forklift Parts

Clark Forklift Parts - At this time, there are over 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive makes of lift trucks, with parts covering more than 120,000 specific components for all of its automated equipment. Your local Clark Supplier is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very impressive international support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark has a relentless goal to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities because this technique is particularly economical and allows for minimal use of resources. Established to guarantee maximum efficiency, this system is designed to find and acknowledge the most effective methods for production plant management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to develop the efficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines innovative product growth and offers superior customer support and service within the industry.
