

Concrete Hopper

Concrete Hopper - This particular attachment is a self-dumping hopper which automatically triggers to dump as bumper release touches the side of a dumpster. Once unloading is completed, the hopper goes back to a locked and upright position. This particular piece of equipment is even offered along with a cable that allows operation from the seat of the lift truck so as to have the choice of manually unloading the hopper. There is a locking chain provided to secure the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper also has a blue powder coat finish to maintain durability.
